PROJECTS

WorldSmith Construction Company Website - https://worldsmithconstruct.com
- Developed and deployed a responsive website for WorldSmith, emphasizing user-friendly navigation and a professional design that reflects brand reliability. Features include service listings, project portfolios, and a blog, built with HTML, CSS, and JavaScript. Optimized for modern layout, accessibility, and cross-device performance.

Ulo·Aku Bank App - https://sammie-create.github.io/ulo-aku-project/
- Created a prototype bank app, Ulo·Aku, designed to simulate basic banking functionalities and user interactions. Developed with a focus on user experience and interface simplicity, implementing HTML, CSS, and JavaScript for a responsive and intuitive design.

SunnySide Agency Landing Page - https://sammie-create.github.io/sunnyside-agency-landing-page
- Built a visually appealing, fully responsive landing page for a creative agency. Built using CSS, SASS, and JavaScript, emphasizing modern design and user engagement.

Skilled e-Learning Platform Landing Page - https://sammie-create.github.io/skilled-e-learning-landing-page/
- A clean and responsive landing page for an e-learning platform. Developed with HTML and CSS, optimized for usability across devices.

Pig Dice Game - https://sammie-create.github.io/pig-dice-game/
- An interactive dice game implemented with JavaScript, CSS, and HTML. Features include dynamic game play mechanics and dynamic score tracking.
